(English version for feed
producers and labs)

INFORMATION TO EXTERNAL SUPPLIERS.

COMMUNICATION OF REQUIREMENTS, SELECTION AND EVALUATION CRITERIA.

With this document TESTING BLUE S.L. informs its suppliers of the requirements that the company demands when the organization needs products and services.

Where and when the specifications of the products and services demanded are detailed:

They will be specified in each order that Testing Blue S L makes to satisfy the needs of the organization.

When the approval of products and services is carried out:

In case of services like analytics: they will be approved before beginning the provision of the service, contrasting the needs of the organization with the offer received.

In case of products like feed: they will be checked upon arrival at the company.

Competence / Accreditation requested for the provision of products and services:

Testing Blue S. L. could request experience, CV or any other documentation that proves the competence needed to carry out the service or to provide the product.

Communication with our organization:

It will be done by phone and / or email and / or meetings by Skype.

Performance will be evaluated by:

1. Price
2. Compliance with agreed deadlines
3. Correctness
4. Ease of communication

Verifications or validations at the supplier's facilities

It could be required in some cases or if requested by the client.
